Pressure Gauges

Sample Cylinders

Hoses

HAM-LET Measurement Devices
Pressure Gauges are Bourdon tube measuring devices that guarantee long lasting usage with high durability for in-door and out-door industrial, process and instrumentation applications. Our Pressure Gauges line covers the standard characteristics and extent customization upon request.

Permit the extraction of a sample from a remote process location and provide safe containment for storage and transportation to the laboratory for analysis. The H-285, HAM-LET Needle Valve with Rupture disc, is designed to be mounted on HAM-LET sample cylinders and provide protection against over pressure by venting the media to the atmosphere.

HAM-LET's Hoses lines include full range of high quality SS hose assemblies, wide range of PTFE core SS braided hose assemblies and end connections. Availability of Full Vacuum to High pressure up to 6,000 psi (413bar), 1/4" up to 2" ID range custom length, all tested and individually packed. All HAM-LET hose assemblies are fitted with HAM-LET's quality fittings providing maximum usability and exchangeability with the highest safety levels.

HAM-LET Connectors

FOUNDED IN 1950, HAM-LET Group specializes in the design, development, production and marketing of high quality instrumentation valves and fittings in a wide variety of materials for high pressure, high temperature and vacuum applications. An accent on quality combined with ongoing research and development has given the company an international reputation for excellence. As a result, HAM-LET Group today is the fastest growing company in this industry. We are Totally Committed to our customers providing highest quality products and best of breed service. Our products are used around the world in a wide range of industries, including Energy, Oil & Gas, Ground Turbines, Chemical and Petrochemical, CNG/NGV, Semiconductor, Analytical and others.

										
LET-LOK® Compression Tube Fittings 1/16" Through 2" 2 mm Through 50 mm-Metric	ONE-LOK Single Ferrule Fittings 1/16" Through 1"	SAE37° FLARE 37° Flare Fittings 1/8" To 1 1/2"	WELDLINE Instrument Weld Fittings	PIPELINE Instrument Pipe Fittings	HOSE-END™ HAM-LET Hose Connectors	FLANGES HAM-LET Flange Adapters	UHLINE Ultra Vacuum Fittings	HTC® Orbital Weld and Metal Gasket Face Seal Fittings	Excess Flow Valves H-911 series	T-Type & In-Line Filters H-600 series

HAM-LET Instrumentation Valves

												
High Performance Ball Valves H-6800 series	3 Piece Ball Valves H-500 series	Compact One Piece Ball Valves H-800 series	Ball Valves with Locking Device H-700 series	Metering Valves H-1300 series	Metering Ball Valves MBV series	Integral Bonnet Needle Valves H-300U series	High Pressure Needle Valves H-99 series	Toggle Valves H-1200 series	Check Valves - High Pressure, One Piece & Adjustable H-400 series	QCLOK® Quick Connectors 1/4", 3/8", 1/2"	Relief Valves H-900 & H-900HP series	Valves for CNG/NGV Applications ECE R110 approved
